

# WL75 Q

Wall and step light, LED, for stairways and public areas

The **WL75Q** from LightPartner is a refined wall-mounted LED light designed primarily for stairways and public corridors aboard vessels. Encased in steel with a decorative stainless-steel-look ring and an opal diffuser, it adheres to the highest maritime classification standards while adding a touch of elegance. Its quick and hassle-free installation—thanks to compatibility with standard surface pattress boxes—makes setup effortless. With a low-power, efficient LED source emitting warm, inviting illumination, the WL75Q brings subtle safety and upgraded style to any interior passageway.

## Technical Details

Possible combinations of features and other options available on request. Please contact us for more information.

Luminaire Type	Wall Luminaire
Input Voltage	230 VAC
Area	Indoor
Application	Cruise / Offshore / Naval / Commercial
Frequency	50-60 Hz
Wattage	1x 1,8 W
Lumen Output	80 lm
Color Temperature	3000 K
CRI Color Rendering Index	80
Control Mode	Switchable

Cover / Diffusor	Opal
Material of Housing	Plastic
Color of Housing / Ring	Stainless steel brushed
Type of Light Source	LED
Light Source Included	Yes
Cable Entry	Hole
Type of Connection	Terminal 3-pole, 2.5mm <sup>2</sup>
Mounting Type	Flush-mounted socket
IP Class	IP20
Cut Out in mm	68
