

DL01

The **DL01** from LightPartner is a discreet, recessed step or path light that adds elegance and safety to stairways and passageways aboard ships. With its compact stainless-steel housing, brushed decorative ring, and opal polycarbonate lens, it delivers a soft, warm glow while blending seamlessly into interiors. Rated IP44 and designed to maritime classification standards, the DL01 is easy to install using spring clips for wall thicknesses of 1–25 mm. It consumes minimal energy, is dimmable, and offers customization choices such as various color temperatures and finish options—making it a subtle yet effective addition to premium lighting schemes.

Technical Details

Possible combinations of features and other options available on request. Please contact us for more information.
