

TI14

Chart table light with flexible arm and switch in base

The **TI14** from LightPartner is a premium chart and reading table lamp engineered to meet maritime classification standards. Featuring a flexible arm with base-mounted switch and compact, robust construction, this fixture offers precise, ambient illumination ideal for navigation or workspaces. It runs on low-voltage MR16 LED (GU5.3) and is available with various arm lengths and optional 24 V versions. Durable, adjustable, and designed for calm and effectiveness during long shifts at sea.
