

DL63 IP55

LED Downlight with changeable cover ring, for cabins, accommodation and public areas

The **DL63 IP55** is a durable LED downlight designed for cabins, accommodation areas, and public spaces. Its galvanized steel housing with powder-coated finish and interchangeable cover rings allows seamless integration into various interiors. Offering multiple wattage options and warm, uniform illumination, it delivers flexible lighting solutions. Rated IP55, it is protected against dust and water, easy to install, and compliant with maritime classification standards. Optional features include dimming and emergency battery backup.
